International Science and Education Competitive Grants Program

Request for Applications

APPLICATION DEADLINE: September 13, 2004

U.S. Department of Agriculture

Cooperative State Research, Education, and Extension Service
COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE;
U.S. DEPARTMENT OF AGRICULTURE

INTERNATIONAL SCIENCE AND EDUCATION COMPETITIVE GRANTS
PROGRAM

INITIAL ANNOUNCEMENT

CATALOG OF FEDERAL DOMESTIC ASSISTANCE: This program is listed in the
Catalog of Federal Domestic Assistance under 10.305.

DATES: Applications must be received by close of business (COB) on September 13, 2004
(5:00 p.m. Eastern Time). Applications received after this deadline will not be considered for
funding. Comments regarding this request for applications (RFA) are requested within six
months from the issuance of this notice. Comments received after that date will be considered to
the extent practicable.

STAKEHOLDER INPUT: The Cooperative State Research, Education, and Extension Service
(CSREES) is requesting comments regarding this RFA from any interested party. These
comments will be considered in the development of the next RFA for the program. Such
comments will be used to meet the requirements of section 103(c)(2) of the Agricultural
Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613(c)(2)). This section
requires the Secretary to solicit and consider input on a current RFA from persons who conduct
or use agricultural research, education and extension for use in formulating future RFA’s for
competitive programs. Comments should be submitted as provided for in the DATES portion of
this Notice.

Written stakeholder comments should be submitted by mail to: Policy and Program Liaison
Staff; Office of Extramural Programs; Cooperative State Research, Education, and Extension
Service; USDA; STOP 2299; 1400 Independence Avenue, S.W.; Washington, D.C. 20250-2299;
or via e-mail to: RFP-OEP@csrees.usda.gov. (This e-mail address is intended only for receiving
comments regarding this RFA and not requesting information or forms.) In your comments,
please state that you are responding to the International Science and Education Competitive
Grants Program RFA.

EXECUTIVE SUMMARY: CSREES announces the availability of grant funds and requests
applications for the International Science and Education Competitive Grants Program (ISE) for
fiscal year (FY) 2003 and 2004 to support research, extension, and teaching activities that will
enhance the capabilities of American colleges and universities to conduct international
collaborative research, extension and teaching. The amount available for support of this program
is $1,335,782. This consists of $476,880 made available in FY 2003, and $858,902 made
available in FY 2004.

This notice identifies the objectives for ISE projects, the eligibility criteria for projects and
applicants, and the application forms and associated instructions needed to apply for an ISE
grant. CSREES additionally requests stakeholder input from any interested party for use in the
development of the next RFA for this program.

PART I-FUNDING OPPORTUNITY DESCRIPTION
A. Legislative Authority and Background

Section 229 of the Agricultural Research, Extension and Education Reform Act of 1998 (AREERA) amended Section 1459 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA) (7 U.S.C. §3292b) to authorize the Secretary of Agriculture to make competitive grants to colleges and universities in order to strengthen United States economic competitiveness and to promote international market development.

ISE projects are expected to enhance the international content of curricula; ensure that faculty work beyond the U.S. and bring lessons learned back home; promote international research partnerships; enhance the use of application of foreign technologies in the U.S., and strengthen the role that colleges and universities play in maintaining U.S. competitiveness.

B. Purpose and Priorities

The purpose of ISE is to support the internationalization of food, agriculture and related programs at U.S. universities and colleges. It is intended that ISE will improve the ability of American students, business people, and community members to compete more effectively in the global world of agriculture. ISE projects are to strengthen the global competence and competitiveness of American colleges, universities and businesses in the food, agriculture, and related sectors. In addition, ISE projects must be directed to agricultural research, extension, and teaching activities that enhance the capabilities of American colleges and universities to conduct international collaborative research, extension and teaching.

Our success in the global arena will increasingly require U.S. colleges and universities to produce graduates who can operate competently in domestic and international settings. Through their outreach efforts, universities and colleges also play a critical role in helping U.S. producers successfully operate in foreign markets.

In response to these national needs, ISE is designed to foster innovative campus-based programs. Proposals should demonstrate how the proposed work responds to the specific needs and strengths of the university or college in addressing the following areas:

1. Strengthening the Global Competence of Students, Faculty, and Staff in Agriculture and Related Areas

Students, faculty, and staff should clearly understand international factors that affect U.S. food and agriculture, and faculty and staff should convey an understanding of the international dimensions of agricultural and related sciences to students. Areas of emphasis may include but are not limited to: (a) planning, implementing and/or evaluating initiatives that enhance the international content of the curricula in colleges and universities so as to ensure that United States students acquire an understanding of the international dimensions and trade implication of their studies; (b) ensuring that U.S. scientists, extension agents, and educators convey the implications of their international findings to students, peers and other users in the United States; or, (c) enhancing the capabilities of colleges and universities to conduct collaborative research with other countries, in cooperation with other Federal agencies, on issues relevant to U.S. agricultural competitiveness.

2. Enhancing Business Performance in International Agriculture and Related Sectors
Through extension, research and/or teaching programs, enhance the ability of American agricultural producers, marketers and others in the agricultural community to operate effectively in the global arena. Supportable activities include but are not limited to: (a) enhancing the capabilities of U.S. colleges and universities to provide cooperative extension education that promotes the application of new technology developed in foreign countries to U.S. agriculture; or (b) enhancing the capability of U.S. colleges and universities, in cooperation with other Federal agencies, to provide leadership and education programs in market identification, international trade policies, new or existing markets, and production efficiencies. Such programs should strengthen the ability of American natural resources and food production, processing, and distribution businesses and industries to compete internationally.

PART II—AWARD INFORMATION

A. Available Funding

There is no commitment by USDA to fund any particular application or to make a specific number of awards. Approximately $1,335,782 will be available to fund applications for this competition.

B. Types of Applications

Only new applications may be submitted to the ISE Program. This is a project application that has not been previously submitted to the ISE Program. All new applications will be reviewed competitively using the selection process and evaluation criteria described in Part V—Application Review Requirements.

C. Project Types

Multi-year proposals, up to a maximum of four years, may be submitted. The maximum amount for any single award under this program is $100,000, and no institution may receive and/or participate in more than one grant as the lead organization. Funding levels may be adjusted based on the technical review of the projects.

PART III-ELIGIBILITY INFORMATION

A. Eligible Applicants

Applications may be submitted by colleges and universities as defined in section 1404 of NARETPA. The terms “college” and “university” mean an educational institution in any State which (1) admits as regular students only person having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (2) is legally authorized within such State to provide a program of education beyond secondary education, (3) provides an education program for which a bachelor’s degree or any other higher degree is awarded, (4) is a public or other nonprofit institution, and (5) is accredited by a nationally recognized accrediting agency or association. Award recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project.
B. Cost Sharing or Matching

CSREES does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria.

PART IV—APPLICATION AND SUBMISSION INFORMATION

A. Address to Request Application Package

Program application materials are available at the CSREES Funding Opportunities web site (http://www.csrees.usda.gov) click on funding opportunities, and go down the alphabetical list to International Science and Education Competitive Grants Program. If you do not have access to the web page or have trouble downloading material and you would like a hardcopy, you may contact the Proposal Services Unit, Competitive Programs, USDA/CSREES at (202) 401-5048. When calling the Proposal Services Unit, please indicate that you are requesting the RFA and associated application forms for the International Science and Education Competitive Grants Program. These materials also may be requested via Internet by sending a message with your name, mailing address (not e-mail) and phone number to psb@csrees.usda.gov. State that you want a copy of the RFA and the associated application forms for ISE.

B. Content and Form of Application Submission

The applications should be prepared following the guidelines and the instructions below. Each application must contain the following elements in the order indicated:

1. General

Use the following guidelines to prepare an application. Proper preparation of applications will assist reviewers in evaluating the merits of each application in a systematic, consistent fashion:

(a) Prepare the application on only one side of the page using standard size (8 1/2" x 11") white paper, one-inch margins, typed or word processed using no type smaller than 12 point font, and single or double spaced. Use an easily readable font face (e.g., Geneva, Helvetica, Times Roman).

(b) Number each page of the application sequentially, starting with the Project Description, including the budget pages, required forms, and any appendices.

(c) Staple the application in the upper left hand corner. Do not bind. An original and 12 copies (13 total) must be submitted in one package.

(d) Include original illustrations (photographs, color prints, etc.) in all copies of the application to prevent loss of meaning through poor quality reproduction.

(e) The contents of the application should be assembled in the following order:

1) Proposal Cover Page (Form CSREES-2002)
2) Table of Contents
3) Project Summary (Form CSREES-2003)
4) Project Description
5) References
(6) Appendices to Project Description
(7) Key Personnel
(8) Collaborative Arrangements (including Letters of Support)
(9) Conflict-of-Interest List (Form CSREES-2007)
(10) Budget (Form CSREES-2004)
(11) Budget Narrative
(12) Current and Pending Support (Form CSREES-2005)
(13) Assurance Statement(s) (Form CSREES-2008)
(14) Compliance with the National Environmental Policy Act (NEPA) (Form CSREES-2006)
(15) Page B, Proposal Cover Page (Form CSREES-2002), Personal Data on Project Director

2. Proposal Cover Page (Form CSREES-2002)

Page A
Each copy of each grant application must contain a “Proposal Cover Page”, Form CSREES-2002. One copy of the application, preferably the original, must contain the pen and ink signature(s) of the proposing Project Directors (PDs) and the authorized organizational representative (AOR), the individual who possesses the necessary authority to commit the organization's time and other relevant resources to the project. If there are more than three co-PD’s for an application, please list additional co-PD’s on a separate sheet of paper (with appropriate information and signatures) and attach to the Proposal Cover Page (Form CSREES-2002). Any proposed PD or co-PD whose signature does not appear on Form CSREES-2002 or attached additional sheets will not be listed on any resulting grant award. Complete both signature blocks located at the bottom of the “Proposal Cover Page” form. Please note that Form CSREES-2002 is comprised of two parts - Page A which is the “Proposal Cover Page” and Page B which is the “Personal Data on Project Director.”

Form CSREES-2002 serves as a source document for the CSREES grant database; it is therefore important that it be accurately completed in its entirety, especially the e-mail addresses requested in Blocks 4.c. and 18.c. However, the following items are highlighted as having a high potential for errors or misinterpretations:

(a) Type of Performing Organization (Blocks 6.A. and 6.B.). For Block 6.A., a check should be placed in the appropriate box to identify the type of organization which is the legal recipient named in Block 1. Only one box should be checked. For Block 6.B., please check as many boxes that apply to the affiliation of the PD listed in Block 16.

(b) Title of Proposed Project (Block 7.). The title of the project must be brief (140 character maximum, including spaces), yet represent the major thrust of the effort being proposed. Project titles are read by a variety of nonscientific people; therefore, highly technical words or phraseology should be avoided where possible. In addition, introductory phrases such as “investigation of,” “research on,” “education for,” or “outreach that” should not be used.

(c) Program to Which You Are Applying (Block 8.). Enter “International Science and Education Competitive Grants Program” or “ISE.”
(d) DUNS NO. (Data Universal Numbering System) (Block 11.). A DUNS number must be included for the legal recipient named in Block 1. (except applications from individuals). See Part VIII, G.

(e) Type of Request (Block 14.). Check the block for “New.”

(f) Project Director (PD) (Blocks 16.-19.). Blocks 16.-18. are used to identify the PD and Block 19. to identify co-PD’s. If needed, additional co-PD’s may be listed on a separate sheet of paper and attached to Form CSREES-2002, the Proposal Cover Page, with the applicable co-PD information and signatures. Listing multiple co-PD’s, beyond those required for genuine collaboration, is discouraged.

(g) Other Possible Sponsors (Block 21.). List the names or acronyms of all other public or private sponsors including other agencies within USDA to which your application has been or might be sent. In the event you decide to send your application to another organization or agency at a later date, you must inform the identified CSREES program contact as soon as practicable. Submitting your application to other potential sponsors will not prejudice its review by CSREES; however, submitting the same (i.e., duplicate) application to another CSREES program is not permissible.

**Page B**

Page B should be submitted only with the original signature copy of the application and should be placed as the last page of the original copy of the application. This page contains personal data on the PD(s). CSREES requests this information in order to monitor the operation of its review and awards processes. This page will not be duplicated or used during the review process. Please note that failure to submit this information will in no way affect consideration of your application.

3. **Table of Contents**

For consistency and ease in locating information, each application must contain a detailed Table of Contents immediately following the Proposal Cover Page. The Table of Contents should contain page numbers for each component of the application. Page numbering should begin with the first page of the Project Description.

4. **Project Summary (Form CSREES-2003)**

The application must contain a “Project Summary,” Form CSREES-2003. The summary should be approximately 250 words, contained within the box, placed immediately after the Table of Contents, and not numbered. The names and affiliated organizations of all PD’s and co-PD’s should be listed on this form, in addition to the title of the project. The summary should be a self contained, specific description of the activity to be undertaken and should focus on: overall project goal(s) and supporting objectives; plans to accomplish project goal(s); and relevance of the project to the goals of the ISE. The importance of a concise, informative Project Summary cannot be overemphasized. If there are more than three co-PD’s for an application, please list additional co-PD’s on a separate sheet of paper (with appropriate information) and attach to the Project Summary (Form CSREES-2003).
5. Project Description

PLEASE NOTE: The Project Description shall not exceed 15 pages of written text and up to five additional pages for figures and tables. This maximum (20 pages) has been established to ensure fair and equitable competition. The Project Description must include all of the following:

C An introduction which states the goals and objectives of the proposed activities, documents needs, describes ongoing related activities and include relevant data;

C A description of the project’s overall approach and cooperation which 1) identifies proposed activities and methods in clear and sufficient detail to be understood by expert reviewers, 2) explains any proposed cooperators, how they will contribute to the project and how they will be coordinated, and 3) describes institutional commitment to the project. Cooperators may be from organizations located outside of the U.S.;

C A description of the project’s potential for contributing to internationalization which includes 1) a description of expected short and longer term impacts, products, and results, 2) indicators which will allow program results to be evaluated and verified, 3) a timetable with completion dates for phases of the project, 4) a dissemination plan, and 5) and continuation plans that describe post-project activities.

6. References

All references to works cited should be complete, including titles and all co-authors, and should conform to an acceptable journal format. References are not considered in the page-limitation for the Project Description.

7. Appendices to Project Description

Appendices to the Project Description are allowed if they are directly germane to the proposed project. The addition of appendices should not be used to circumvent the text and/or figures and tables page limitations.

8. Key Personnel

The following should be included, as applicable:

(a) The roles and responsibilities of each PD and/or collaborator should be clearly described; and

(b) Vitae of the PD and each co-PD, senior associate, and other professional personnel. This section should include vitae of all key persons who are expected to work on the project, whether or not CSREES funds are sought for their support. The vitae should be limited to two (2) pages each in length, excluding publications listings. The vitae should include a presentation of academic and research credentials, as applicable, e.g., earned degrees, teaching experience, employment history, professional activities, honors and awards, and grants received. A chronological list of all publications in refereed journals during the past four (4) years, including those in press, must be provided for each project member for whom a curriculum vitae is provided. Also list only those non-refereed technical publications that have relevance to the
proposed project. All authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals.

9. Collaborative Arrangements

If it will be necessary to enter into formal consulting or collaborative arrangements with others, such arrangements should be fully explained and justified. If the consultant(s) or collaborator(s) are known at the time of application, a vitae or resume should be provided. In addition, evidence (e.g., letter of support) should be provided that the collaborators involved have agreed to render these services. The applicant also will be required to provide additional information on consultants and collaborators in the budget portion of the application. See instructions in the application forms for completing Form CSREES-2004, Budget.

10. Conflict-of-Interest List (Form CSREES-2007)

A “Conflict-of-Interest List,” Form CSREES-2007, must be provided for all individuals who have submitted a vitae in response to item 9.(b) of this part. Each Form CSREES-2007 should list alphabetically, by the last names, the full names of the individuals in the following categories: (a) All co-authors on publications within the past four years, including pending publications and submissions; (b) all collaborators on projects within the past four years, including current and planned collaborations; (c) all thesis or postdoctoral advisees/advisors within the past four years; and (d) all persons in your field with whom you have had a consulting or financial arrangement within the past four years, who stand to gain by seeing the project funded. This form is necessary to assist program staff in excluding from application review those individuals who have conflicts of interest with the personnel in the grant application. The program contact must be informed of any additional conflicts of interest that arise after the application is submitted.

11. Budget

a. General

(1) Budget Form (Form CSREES-2004)

Prepare the Budget, Form CSREES-2004, in accordance with instructions provided with the application forms. A budget form is required for each year of requested support. In addition, a cumulative budget is required detailing the requested total support for the overall project period. The budget form may be reproduced as needed by applicants. Funds may be requested under any of the categories listed on the form, provided that the item or service for which support is requested is allowable under the authorizing legislation, the applicable statutes, regulations, and Federal cost principles, and these program guidelines, and can be justified as necessary for the successful conduct of the proposed project (see Part IV, D. for applicable funding restrictions). Applicants also must include a budget narrative to justify their budget requests (see section b. below.)

b. Budget Narrative
All budget categories, with the exception of Indirect Costs, for which support is requested, must be individually listed (with costs) in the same order as the budget and justified on a separate sheet of paper and placed immediately behind the Budget Form.

12. Current and Pending Support (Form CSREES-2005)

All applications must contain Form CSREES-2005 listing other current public or private support (including in-house support) to which personnel (i.e., individuals submitting a vitae in response to item 9.(b) of this part) identified in the application have committed portions of their time, whether or not salary support for person(s) involved is included in the budget. Please follow the instructions provided on this form. Concurrent submission of identical or similar applications to the possible sponsors will not prejudice application review or evaluation by the CSREES. However, an application that duplicates or overlaps substantially with an application already reviewed and funded (or to be funded) by another organization or agency will not be funded under this program. Please note that the project being proposed should be included in the pending section of the form.

13. Assurance Statement(s) (Form CSREES-2008)

A number of situations encountered in the conduct of projects require special assurances, supporting documentation, etc., before funding can be approved for the project. In addition to any other situation that may exist with regard to a particular project, applications involving any of the following elements must comply with the additional requirements as applicable.

a. Recombinant DNA or RNA Research

As stated in 7 CFR Part 3015.205 (b)(3), all key personnel identified in the application and all endorsing officials of the proposing organization are required to comply with the guidelines established by the National Institutes of Health entitled, “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. If your project proposes to use recombinant DNA or RNA techniques, you must so indicate by checking the “yes” box in Block 20 of Form CSREES-2002 (the Proposal Cover Page) and by completing Section A of Form CSREES-2008. For applicable applications recommended for funding, Institutional Biosafety Committee approval is required before CSREES funds will be released. Please refer to the application forms for further instructions.

b. Animal Care

Responsibility for the humane care and treatment of live vertebrate animals used in any grant project supported with funds provided by CSREES rests with the performing organization. Where a project involves the use of living vertebrate animals for experimental purposes, all key personnel identified in an application and all endorsing officials of the proposing organization are required to comply with the applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.), and the regulations promulgated thereunder by the Secretary in 9 CFR Parts 1, 2, 3, and 4 pertaining to the care, handling, and treatment of these animals. If your project will involve these animals, you should check “yes” in block 20 of Form CSREES-2002 and complete Section B of Form CSREES-2008. In the event a project involving the use of live vertebrate animals results in a grant award, funds will be released only after the Institutional
Animal Care and Use Committee has approved the project. Please refer to the application forms for further instructions.

c. Protection of Human Subjects

Responsibility for safeguarding the rights and welfare of human subjects used in any grant project supported with funds provided by CSREES rests with the performing organization. Guidance on this issue is contained in the National Research Act, Pub. L. No. 93-348, as amended, and implementing regulations promulgated by the Department under 7 CFR Part 1c. If you propose to use human subjects in your project, you should check the “yes” box in Block 20 of Form CSREES-2002 and complete Section C of Form CSREES-2008. In the event a project involving human subjects is recommended for award, funds will be released only after the Institutional Review Board (IRB) has approved the research plan and CSREES has accepted documentation of the IRB approval. Please refer to the application forms for additional instructions.

14. Certifications

Note that by signing Form CSREES-2002 the applicant is providing the certifications required by 7 CFR Part 3017, regarding Debarment and Suspension and Drug-Free Workplace, and 7 CFR Part 3018, regarding Lobbying. The certification forms are included in the application package for informational purposes only. These forms should not be submitted with the application since by signing Form CSREES-2002 your organization is providing the required certifications. If the project will involve a subcontractor or consultant, the subcontractor/consultant should submit a Form AD-1048, Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions, to the grantee organization for retention in their records. This form should not be submitted to USDA.

15. Compliance with the National Environmental Policy Act (NEPA) (Form CSREES-2006)

As outlined in 7 CFR Part 3407 (the CSREES regulations implementing NEPA), the environmental data for any proposed project is to be provided to CSREES so that CSREES may determine whether any further action is needed. In some cases, however, the preparation of environmental data may not be required. Certain categories of actions are excluded from the requirements of NEPA.

In order for CSREES to determine whether any further action is needed with respect to NEPA, pertinent information regarding the possible environmental impacts of a particular project is necessary; therefore, Form CSREES-2006, “NEPA Exclusions Form,” must be included in the application indicating whether the applicant is of the opinion that the project falls within a categorical exclusion and the reasons therefore. If it is the applicant’s opinion that the proposed project falls within the categorical exclusions, the specific exclusion(s) must be identified.

Even though a project may fall within the categorical exclusions, CSREES may determine that an Environmental Assessment or an Environmental Impact Statement is necessary for an activity, if substantial controversy on environmental grounds exists or if other extraordinary conditions or circumstances are present which may cause such activity to have a significant environmental effect.
C. Submission Dates and Times

Applications must be received by COB on September 13, 2004 (5:00 p.m. Eastern Time). Applications received after this deadline will not be considered for funding.

D. Funding Restrictions

Each institution may submit no more than two proposals as the lead institution. No institution, acting as the principal or lead institution will receive more than one grant. Therefore, institutions are encouraged to establish on-campus quality control mechanisms to ensure that only the highest quality proposals are submitted for consideration. (See Part II.C., Project Types.)

Program funds may not be used for the renovation or refurbishment of research, education or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Consistent with the provisions of the Consolidated Appropriations Act of 2004, indirect costs under this program are limited to 20% of total funds awarded. This amount may be calculated as 25% of total direct costs.

E. Other Submission Requirements

1. What to Submit

An original and 12 copies must be submitted. All copies of the application must be submitted in one package.

2. Where to Submit

Applicants are strongly encouraged to submit completed applications via overnight mail or delivery service to ensure timely receipt by the USDA. The address for hand delivered applications or applications submitted using an express mail or overnight courier service is:

International Science and Education Competitive Grants Program
c/o Proposal Services Unit
Cooperative State Research, Education, and Extension Service
U.S. Department of Agriculture
Room 1420, Waterfront Centre
800 9th Street, S.W.
Washington, D.C. 20024

Telephone: (202) 401-5048

Applications sent via the U.S. Postal Service must be sent to the following address:

International Science and Education Competitive Grants Program
c/o Proposal Services Unit
Cooperative State Research, Education, and Extension Service
U.S. Department of Agriculture
STOP 2245
The receipt of all applications will be acknowledged by e-mail. Therefore, applicants are strongly encouraged to provide accurate e-mail addresses, where designated, on the Form CSREES-2002. If the applicant’s e-mail address is not indicated, CSREES will acknowledge receipt of the application by letter.

If the applicant does not receive an acknowledgment within 60 days of the submission deadline, please contact the program contact. Once the application has been assigned a proposal number, please cite that number on all future correspondence.

PART V-APPLICATION REVIEW REQUIREMENTS

A. General

Each application will be evaluated in a 2-part process. First, each application will be screened to ensure that it meets the administrative requirements as set forth in this RFA. Second, applications that meet these requirements will be technically evaluated by a review panel.

Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

B. Evaluation Criteria

The following evaluation criteria and weights will be used to evaluate proposals submitted for funding (weight is in parentheses; 150 total points):

1. Overall Approach and Collaboration. This criterion relates to the soundness of the proposed approach and the quality of cooperation.

   (a) Proposed Approach - Do the objectives and plan of operation appear to be sound and appropriate relative to the issues being addressed? Are the procedures sound? Does the project build upon relevant faculty/university experiences? Is the overall plan integrated with existing campus-based food and agricultural programs? Does the timetable appear to be realistic? (20 points)
(b) **Cooperation** - If institutional partnerships are proposed, are there clear and appropriate levels of coordination between the lead institution and other partner institutions in the U.S. or overseas? Will the partnership clearly benefit U.S. institutions? If no institutional partnerships are proposed, will the proposing institution be able to effectively implement the activities on its own? *(10 points)*

(c) **Institutional Commitment** - Is there evidence that the lead and any partnering institutions attribute a high priority to the project, that the project is linked to the achievement of the institutions’ long-term strategies? Will the project have reasonable access to other needed resources such as equipment, facilities, computer services, library and other support resources? *(5 points)*

2. **Potential for Contributing to Internationalization** - This criterion highlights the likelihood that the proposed activity will strengthen the ability of faculty, staff, students, businesses and communities to understand the global dimensions of food, agriculture and related sectors so as to operate effectively in an international arena.

(a) **Impact** - Does the project address an important opportunity or constraint to internationalization in a college’s or university’s food, agriculture or related programs? Will it strengthen the capacity of the applicant institution(s) to conduct and participate in internationalization activities. Will it provide the means to raise student, faculty and/or private sector’s awareness of the international dimensions of agriculture? Does it respond to the needs of private sector and/or communities in ways that can be addressed by the university or college? Is the problem or opportunity clearly documented? Will the project serve as a model for other activities? *(30 points)*

(b) **Products and Results** - Are the expected products and results of the project clearly defined and likely to be of high quality? Will the project contribute to a better understanding of, or an improvement in, the use of international approaches and programs in extension, teaching and/or research? *(20 points)*

(c) **Evaluation** - Are the evaluation plans adequate and reasonable for demonstrating overall success of project objectives? Do they allow for continuous or frequent feedback during the life of the project? Are the individuals involved in project evaluation skilled in evaluation strategies and procedures? Can they provide an objective evaluation based on strategies proposed in the project? Do evaluation plans facilitate the measurement of project progress and results? *(20 points)*

(d) **Dissemination** - Does the proposed project include clearly outlined and realistic mechanisms that will lead to widespread dissemination of project results, including national electronic communication systems, publications, presentations at professional conferences, or use by faculty development or research/extension/teaching skills workshops? *(10 points)*

(e) **Continuation Plans** - Are there plans for continuing or expanding the project after USDA support ends? Will the project lead to long-term relationships or cooperative
partnerships, including those with the private sector and/or non-governmental organizations, that are likely to enhance program impacts? Will the benefits to be derived from the project transcend the grant period? (10 points)

3. **Personnel Resources** - This criterion relates to the number and qualifications of the key persons who will carry out the project. Are designated project personnel qualified to carry out a successful project? Are there sufficient numbers of personnel associated with the project to achieve the state objectives and the anticipated outcomes? (15 points)

4. **Budget and Cost Effectiveness** - This criterion relates to the extent to which the total budget adequately supports the project and is cost effective. Is the budget request clear and adequately justified? Are costs reasonable and necessary? Will the budget be adequate to carry out project activities? Does the budget maximize value per dollar of USDA support? (10 points)

**C. Conflicts of Interest and Confidentiality**

During the peer evaluation process, extreme care will be taken to prevent any actual or perceived conflicts of interest that may impact review or evaluation. For the purpose of determining conflicts of interest, the academic and administrative autonomy of an institution shall be determined by reference to the current Higher Education Directory, published by Higher Education Publications, Inc., 6400 Arlington Boulevard, Suite 648, Falls Church, Virginia 22042. Phone: (703) 532-2300. Web site: http://www.hepinc.com.

Names of submitting institutions and individuals, as well as application content and peer evaluations, will be kept confidential, except to those involved in the review process, to the extent permitted by law. In addition, the identities of peer reviewers will remain confidential throughout the entire review process. Therefore, the names of the reviewers will not be released to applicants. At the end of the fiscal year, names of panelists will be made available in such a way that the panelists cannot be identified with the review of any particular application.

**PART VI-AWARD ADMINISTRATION**

**A. General**

Within the limit of funds available for such purpose, the awarding official of CSREES shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in this RFA. The date specified by the awarding official of CSREES as the effective date of the grant shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the grant effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds granted by CSREES under this RFA shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations, the terms and conditions of the award, the applicable Federal cost principles, and the Department's assistance regulations (parts 3015 and 3019 of 7 CFR).
B. Organizational Management Information

Specific management information relating to an applicant shall be submitted on a one time basis as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another CSREES program. CSREES will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information).

C. Award Notice

The award document will provide pertinent instructions and information including, at a minimum, the following:

1. Legal name and address of performing organization or institution to whom the Administrator has issued an award under the terms of this request for applications;

2. Title of project;

3. Name(s) and institution(s) of PD’s chosen to direct and control approved activities;

4. Identifying award number assigned by the Department;

5. Project period, specifying the amount of time the Department intends to support the project without requiring recompetition for funds;

6. Total amount of Departmental financial assistance approved by the Administrator during the project period;

7. Legal authority(ies) under which the award is issued;

8. Applicable Catalog of Federal Domestic Assistance (CFDA) number;

9. Applicable award terms and conditions (see http://www.csrees.usda.gov/business/awards/awardterms.html to view CSREES award terms and conditions);

10. Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the award; and

11. Other information or provisions deemed necessary by CSREES to carry out its respective awarding activities or to accomplish the purpose of a particular award.

D. Administrative and National Policy Requirements
Several Federal statutes and regulations apply to grant applications considered for review and to project grants awarded under this program. These include, but are not limited to:

7 CFR Part 3--USDA debt collection regulation.

7 CFR Part 15, subpart A--USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.

7 CFR Part 3017--USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug Free Workplace (Grants).

7 CFR Part 3018--USDA implementation of Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.

7 CFR Part 3019--USDA implementation of OMB Circular A-110, Uniform Administrative Requirements for Grants and Other Agreements With Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations.

7 CFR Part 3407--CSREES procedures to implement the National Environmental Policy Act of 1969, as amended.

29 U.S.C. 794 (section 504, Rehabilitation Act of 1973) and 7 CFR Part 15b (USDA implementation of statute)--prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.

35 U.S.C. 200 et seq.--Bayh Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR Part 401).

E. Expected Program Outputs and Reporting Requirements

Recipients of funded projects will be expected to verify program accomplishments.

Grantees must prepare semi-annual reports that document significant activities or events that show movement toward achieving goals and objectives of the project. The reports should
specify performance targets for that period and contain evidence that verifies the extent to which these targets have been met.

PART VII-AGENCY CONTACT

Applicants and other interested parties are encouraged to contact Hiram Larew, Director, International Programs, Cooperative State Research, Education, and Extension Service, USDA; STOP 2203; 1400 Independence Avenue, S.W.; Washington, D.C. 20250-2203; telephone: (202) 720-3801; fax: (202) 690-2355; e-mail: hlarew@csrees.usda.gov.

PART VIII-OTHER INFORMATION

A. Access To Review Information

Copies of reviews, not including the identity of reviewers, and a summary of the panel comments will be sent to the applicant PD after the review process has been completed.

B. Use of Funds; Changes

1. Delegation of Fiscal Responsibility

Unless the terms and conditions of the award state otherwise, the awardee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of award funds.

2. Changes in Project Plans

   a. The permissible changes by the awardee, PD(s), or other key project personnel in the approved project shall be limited to changes in methodology, techniques, or other similar aspects of the project to expedite achievement of the project's approved goals. If the awardee or the PD(s) is uncertain as to whether a change complies with this provision, the question must be referred to the Authorized Departmental Officer (ADO) for a final determination. The ADO is the signatory of the award document, not the program contact.

   b. Changes in approved goals or objectives shall be requested by the awardee and approved in writing by the ADO prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the original approved project.

   c. Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the awardee and approved in writing by the ADO prior to effecting such changes.

   d. Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the awardee and approved in writing by the ADO prior to effecting such transfers, unless prescribed otherwise in the terms and conditions of the award.

   e. Changes in Project Period: The project period may be extended by CSREES without additional financial support, for such additional period(s) as the ADO determines may be necessary to complete or fulfill the purposes of an approved project, but in no case shall the total project period exceed five years. Any extension of time shall be conditioned upon prior request
by the awardee and approval in writing by the ADO, unless prescribed otherwise in the terms and conditions of award.

f. Changes in Approved Budget: Changes in an approved budget must be requested by the awardee and approved in writing by the ADO prior to instituting such changes if the revision will involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or award.

C. Confidential Aspects of Applications and Awards

When an application results in an award, it becomes a part of the record of CSREES transactions, available to the public upon specific request. Information that the Secretary determines to be of a confidential, privileged, or proprietary nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as confidential, privileged, or proprietary should be clearly marked within the application. The original copy of an application that does not result in an award will be retained by the Agency for a period of one year. Other copies will be destroyed. Such an application will be released only with the consent of the applicant or to the extent required by law. An application may be withdrawn at any time prior to the final action thereon.

D. Regulatory Information

For the reasons set forth in the final Rule related Notice to 7 CFR part 3015, subpart V (48 FR 29114, June 24, 1983), this program is excluded from the scope of the Executive Order 12372 which requires intergovernmental consultation with State and local officials. Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the collection of information requirements contained in this Notice have been approved under OMB Document No. 0524-0039.

E. Definitions

For the purpose of this program, the following definitions are applicable:

(1) **Administrator** means the Administrator of the Cooperative State Research, Education, and Extension Service (CSREES) and any other officer or employee of the Department to whom the authority involved is delegated.

(2) **Authorized departmental officer** means the Secretary or any employee of the Department who has the authority to issue or modify grant instruments on behalf of the Secretary.

(3) **Authorized organizational representative** means the president, director, chief executive officer, or other designated official of the applicant organization, who has the authority to commit the resources of the organization.

(4) **Budget period** means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

(5) **Collaboration or Cooperative effort** means a joint effort among two or more institutions, organizations and/or other entities with the capacity to conduct projects intended and designed to accomplish the purpose of the program.

(6) **Department or USDA** means the United States Department of Agriculture.
(7) **Education activity** means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and other related matters such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies.

(8) **Extension activity** means an act or process that delivers science-based knowledge and informal educational programs to people, enabling them to make practical decisions.

(9) **Grant** means the award by the Secretary of funds to an eligible organization or individual to assist in meeting the costs of conducting, for the benefit of the public, an identified project which is intended and designed to accomplish the purpose of the program as identified in these guidelines.

(10) **Grantee** means the organization designated in the grant award document as the responsible legal entity to which a grant is awarded.

(11) **Matching** means that portion of allowable project costs not borne by the Federal Government, including the value of in-kind contributions.

(12) **Peer review** means an evaluation of a proposed project for scientific or technical quality and relevance performed by experts with the scientific knowledge and technical skills to conduct the proposed work or to give expert advice on the merits of a project.

(13) **Peer review panel** means a group of experts qualified by training and/or experience in particular fields to evaluate eligible proposals in those fields submitted under this RFA.

(14) **Prior approval** means written approval evidencing prior consent by an authorized departmental officer as defined in (3) above.

(15) **Project** means the particular activity within the scope of the program supported by a grant award.

(16) **Project director** means the single individual designated in the grant application and approved by the Secretary who is responsible for the direction and management of the project.

(17) **Project period** means the period, as stated in the award document, during which Federal sponsorship begins and ends.

(18) **Secretary** means the Secretary of Agriculture and any other officer or employee of the Department to whom the authority involved is delegated.

**F. CSREES’ Grants.gov Implementation Plans**

Grants.gov is an internet web site for grant and other financial assistance information (e.g., allows grant seekers to find funding opportunities). It also will serve to facilitate electronic transmission of information pertaining to grants and other financial assistance information (e.g., electronic application submission).

In FY 2004, CSREES initiated the receipt of applications electronically through the Grants.gov (http://www.grants.gov) storefront for limited programs. As a result of this initiative, it was evident that improvements are necessary prior to further implementation of electronic applications. CSREES is working hard to provide Grants.gov as an option for programs in FY 2005. More information about CSREES’ Grants.gov plans, including important announcements, program implementation, and detailed requirements, is posted on the CSREES’ web site, http://www.csrees.usda.gov/business/other_links/egov/egov.html which will be updated as appropriate. It is suggested that this site be visited periodically for important updates.
See the section titled, “Other Submission Requirements” for information about the format (i.e., hard copy or electronic) for the submission of proposals under this RFA.

G. DUNS Number

A Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of over 70 million businesses worldwide. A Federal Register notice of final policy issuance (68 FR 38402) requires a DUNS number in every application (i.e., hard copy and electronic) for a grant or cooperative agreement (except applications from individuals) submitted on or after October 1, 2003. Therefore, potential applicants should verify that they have a DUNS number or take the steps needed to obtain one. For information about how to obtain a DUNS number go to http://www.grants.gov/RequestaDUNS. Please note that the registration may take up to 14 business days to complete.

H. Required Registration for Electronic Submission of Proposals

1. Central Contract Registry

The Central Contract Registry (CCR) is a database that serves as the primary Government repository for contractor information required for the conduct of business with the Government. This database will also be used as a central location for maintaining organizational information for organizations seeking and receiving grants from the Government. Such organizations must register in the CCR prior to the submission of applications via grants.gov (a DUNS number is needed for CCR registration). For information about how to register in the CCR visit “Get Started” in the web site, http://www.grants.gov. Allow a minimum of 5 days to complete the CCR registration.

2. Credential Provider and Grants.gov

In order to safeguard the security of your electronic information, Grants.gov utilizes E-Authentication – the Federal program that ensures secure transactions.

E-Authentication defines the level of trust or trustworthiness of the parties involved in a transaction through the use of Credential Providers. It is the process of determining, with certainty, that someone really is who they claim to be.

The Credential Provider for Grants.gov is Operational Research Consultants (ORC). When you register with ORC, you will receive a username and password which you will need to Register with Grants.gov as an Authorized Organization Representative (AOR). As an AOR, you will be authorized to submit grant applications through Grants.gov on behalf of your organization. Note that the eBusiness Point of Contact for your organization will need to assign these rights to you once you have registered with Grants.gov. For information about how to register with a Credential Provider visit “Get Started” in the web site, http://www.grants.gov.
