

Auto Insurance Changes for FY 2010

Except for the "Utility Vehicle" category which includes Mules, Rhinos, golf carts, etc., there will not be any rate changes for FY 2010. However, because of the University large liability claims during the past few years involving accidents with utility vehicles, the auto liability premium for each of these vehicles will increase from \$320 in FY 2009 to \$640 in FY 2010. Also, there will be a \$5,000 per occurrence liability deductible for this category of vehicles in FY 2010.

The following restrictions have also been placed on the use of utility vehicles:

1. Only employees of the University of Arkansas are permitted to drive these vehicles.
2. Unless the vehicles are being used to transport people for special events such as athletic events, receptions, etc; or unless they are being used to transport students and/or guests as part of an official University program or service, only University employees are permitted as passengers.
3. Any exception to the above must be approved in advance by our insurer.
