A training session for users who are new to the ISIS system has been scheduled for February 11 from 2:00 until 3:50 a.m. at ADSB 154. ISIS 101-The Basics covers introductory concepts, navigation and data entry basics to help users gain an understanding of the ISIS system. In addition, the session provides an overview of service indicators and the Family Educational Rights and Privacy Act (FERPA).

There is no charge for the training; however, space is limited to the first 15 registrants so early registration is recommended. Registration for the session is available on the web at
