NATIONAL INSTITUTES OF HEALTH
COMPLIANCE ASSURANCE STATEMENT

Title of Proposal:

This statement will be maintained in the proposal file and made available to the sponsoring agency or other HHS or Federal officials upon request.

The undersigned certifies the following:

1. That the information submitted within the application is true, complete and accurate to the best of his/her knowledge
2. That any false, fictitious, or fraudulent statements or claims may result in criminal, civil, or administrative penalties.
3. That he/she agrees to accept responsibility for the scientific conduct of the project and to provide the required reports in a timely manner if a grant is awarded as a result of the application.
4. That he/she is aware of and will comply with the NIH's Public Access Policy regarding the distribution of research results in accordance with the guidelines stated below:

   Address Copyright
   Make sure that any copyright transfer or other publication agreements allow the final peer-reviewed manuscripts to be submitted to NIH in accordance with the Policy.

   Submit Papers
   Authors may submit a paper to the journal of their choice for publication.

   a. Some publishers make the final published version of every NIH-funded article publicly available in PubMed Central within 12 months of publication, without author involvement. See http://publicaccess.nih.gov/submit_process_journals.htm for a list of these journals.

   b. For any journal other than one of those in this list, the author must:

   i. Inform the journal that the final peer-reviewed manuscript is subject to the Public Access Policy when submitting it for publication.

   ii. Make sure that any copyright transfer or other publication agreement allows the final peer-reviewed manuscript to be submitted to NIH in accordance with the Policy. For more information, see the FAQ Whose approval do I need to submit my article to PubMed Central? and consult with your RSSP.

iii. *Submit the final peer-reviewed manuscript to NIH, upon acceptance for publication.* ***Cite Papers***
When citing their NIH-funded papers in NIH applications, proposals or progress reports, authors must include the PubMed Central reference number for each article. [i]
