

Sears, D. W. G\*. (1995d) Editorial – Appreciations. *Meteoritics*, volume 30, page 620.

\* Authorship not credited in the journal.

### 1995 Appreciations

Meteoritics would not exist without authors, reviewers, associate editors and the editorial and production staff. Our community thanks them all for their contributions to the journal throughout

1995. The silent partners in the enterprise, at least in terms of public visibility, are the reviewers who we especially thank here. After the authors, they are the mainstay of the journal.
