Rachel's approach to training:

"My love is horses and my gift is the ability to train them. I am 37 years old, highly motivated, a free thinker, and a perfectionist. I have spent most of my life working with and training horses. My goal is to establish a team of dedicated equestrians who enjoy each other and their horses. I strive to offer only the best in horse care and services. My customers and their horses are my priority."
