

To: Gay Stewart, Associate Professor, Department of Physics,  
Fulbright College of Arts and Sciences

From: Bob Smith, Provost

I hope you understand how much I support The University of Arkansas Fulbright College of Arts and Sciences and College of Education and Health Professions faculty members who have been collaborating with you to develop the Physics Teacher Education Coalition (PhysTEC)---indeed, as one of the six initial Primary Program Institutions. I am additionally delighted that your NSF-funded efforts are having a measurable impact on the education and training of new certified physical science teachers. Please feel assured that the University is fully supportive of these laudable efforts.

Kindest regards.

Bob Smith
