ONE OF A KIND:

The U of A is set to open the
**Multi-User Silicon Carbide Research
and Fabrication Facility (MUSiC)**
in late 2025.

The one-of-a-kind MUSiC facility is
strengthening the U.S. semiconductor
ecosystem through the design and testing of
products with advanced performance in fields
such as healthcare, computing, transportation
and national defense.

The U of A INSTITUTE for INTEGRATIVE & INNOVATIVE RESEARCH (I³R)

I³R brings top researchers together to solve
real-world problems - like restoring touch
through prosthetic technology - transforming
groundbreaking science into life-changing
solutions for Arkansas and beyond.

Anthony Timberlands Center for Design and Materials Innovation

Design students and faculty are integrating
advanced wood technologies with
innovative design solutions to strengthen
Arkansas' forest economy, drive mass timber
innovation, support rural jobs and help
developers deliver more affordable housing
for communities across the state.

Arkansas Integrative Metabolic Research Center (AIMRC)

Supported by the National Science Foundation, AIMRC is
advancing Arkansas as a national leader in metabolic research -
understanding how changes in metabolism drive disease, aging
and tissue repair. Since its founding in 2021, AIMRC-supported
researchers have secured over \$34M in external research funding
and receive the majority of NIH funding on campus.
